

Franco De Paulo

FRONT END DEVELOPER

PROFILE

I am passionate about design and the Frontend, it motivates me to be in permanent evolution and apply new technologies. I define myself as a proactive, disciplined person, with clear purposes and willing to face great responsibilities. I am currently doing the back end module in the NUCBA web developer full stack bootcamp, so my purpose is to put into practice everything I have learned and grow not only technically but also creatively.

I have done some work as a practice with different technologies, each of them can be found in my Portfolio.

PERSONAL INFORMATION

La Plata, Bs. As.
